

# THREE D METALS

## European REACH Regulation

Three D Metals, Inc. does not manufacture any of the products sold and adds value by slitting, edging, and oscillating material purchased from manufacturers.

Depending on the alloy (e.g. leaded Brass) materials that are supplied by Three D Metals, Inc. may contain Lead [CAS: 7439-92-1], which is a Substance of Very High Concern (SVHC), in quantities above the established limit of 0.1% maximum identified on the EU Candidate List dated January 17, 2023.

Should you have any further questions, please feel free to contact me at 330-558-0788.

Sincerely,

A handwritten signature in black ink that reads "John Bakuhn, Jr." with a stylized flourish at the end.

John Bakuhn, Jr.
